Conclusion

In conclusion, it can be said that the Erasmus+ project ,*Green schools for a bright green future – small steps can make a difference*‘ was very benefitting for the participating students. The great majority of the students acquired cultural and topic related knowledge and stated that they have made changes in their daily life. Through the international cooperation they also improved their communicative skills.

Some students' quotes from the evaluation on their experiences:

- “Unforgettable experience“
- “I met such a kind person, wonderful“
- “The Erasmus project was an incredible experience, I met fantastic people and learned a lot“
- “It was one of the best experiences of my life.“
- “The Erasmus project was, without a doubt, one of, if not the best experience I’ve had in my life, I would love to do it again! It’s good to meet new people, new customs, new countries! Thank you!
- “It’s an absolutely amazing experience that I will never forget. It is a large opportunity for practising a foreign language as well as your social skills.“
- “Erasmus+ is a learning experience. You learn about culture, find new friends, and learn about pollution and global warming. I personally found new friends, learned about culture and new words from my fellow friends in Greece. I loved every second of Erasmus+ and hope to come back to this team in my next school.“

Funded by the programme of the European Union
